

CAMBRIDGE® COOL COLORS PLUS

Architectural Shingles

Cool Looks Even Cooler with Reflective Technology.

HIGH SOLAR REFLECTANCE¹

TO COMPLY WITH CALIFORNIA TITLE 24 COOL ROOF REQUIREMENTS²

TRUE SQUARE ADVANTAGE (100 SQ FT/3 BUNDLES)

TO COMPLY WITH LOS ANGELES CITY & COUNTY ROOF REFLECTANCE REQUIREMENTS²

Want more options for solar reflective shingles? IKO Cambridge Cool Colors Plus shingles boost your home's curb appeal and can be used to comply with California's Title 24, Part 6. Cambridge Cool Colors Plus shingles may even lower your energy bills depending on your location, HVAC system, utility rates, and other factors.

Cambridge Cool Colors Plus shingles are part of the IKO Cambridge line, which has delighted homeowners coast to coast for decades with a great product that offers consistent performance at a reasonable cost.

The IKO Difference

With a legacy of craftsmanship that spans over 75 years, we know quality. That's why contractors and their customers trust IKO to deliver beautiful, high-performing roofing systems that can withstand rigorous conditions — and continue protecting families for generations to come.

What sets Cambridge Cool Colors Plus shingles apart.

Cambridge Cool Colors Plus shingles are designed to not only meet, but exceed California's Title 24, Part 6 solar reflectance requirements² — while safeguarding your home — with features like:

- A solar reflectance index (SRI) of 20 or greater² thanks to embedded infrared-reflective pigments.
- **Class 3** impact resistance rating⁸.
- **Heavy-duty fiberglass mat** construction.
- **True Square Advantage** sizing providing exactly 100 square feet of coverage in every three bundles, helping minimize waste and installation costs.
- **FastLock®** sealant, activated by the warmth of the sun to seal down and help protect against wind uplift.

Note: The solar reflectance index of 20+ applies to shingle colors displayed in this brochure. Available in select US markets.

CAMBRIDGE® COOL COLORS PLUS

Architectural Shingles

SPECIFICATIONS⁶	Limited Warranty²	Limited Lifetime ⁵	Dimensions (L x W)	40 7/8 in (1,038 mm) X 13 3/4 in (349 mm)	STANDARDS⁷	ASTM D3462
	Iron Clad Protection³	10 Years	Exposure	5 7/8 in (149 mm)		ASTM D3018
	Limited Wind Warranty³	110 mph	Coverage per Bundle	33 1/3 sq. ft. (3.1 sq. m)		ASTM D7158 — Class H
	Limited High Wind Warranty Upgrade^{3,4}	130 mph	Shingles per Square	60		ASTM D3161 — Class F
						ASTM E108/UL 790 — Class A
						CRRC-1 SRI 20+
						FM 4473 — Class 3 ⁸

Note: Product and color availability may vary by region. Products with Miami Dade NOA and FBC product approval listings are available. Meets Texas Department of Insurance requirements. Contact IKO for details. ¹Solar reflectance is the roof's ability to reflect solar energy. SRI values range from 0 to 100 — and the higher the SRI, the better the roofing material's ability to reduce heat transfer into the home. Solar Reflectance Index (SRI) is calculated by ASTM E1980. ²Shingles with an SRI of 16+ can be used to comply with California Title 24, Part 6 and shingles with an SRI of 20+ can be used to comply with LA County and City requirements, in lieu of meeting the aged solar reflectance and thermal emittance requirements. To determine if the LA City and County requirements visit the LA County website. ³Refer to the Limited Warranty at IKO.com for full terms, conditions, restrictions and application requirements. Shingles must be installed per application instructions and local building codes. ⁴High-wind application is required. ⁵"Lifetime" refers to the period from installation until the original Owner no longer owns the building. ⁶All values are approximate. ⁷Products are developed with reference to these standards. ⁸Impact rating is solely for potential insurance premium reductions and is not a performance guarantee, implied or express warranty of any kind. Hail damage is not covered under the Limited Warranty. IKO recommends Class 4 or 3 impact resistance rated Hip and Ridge capping shingles be installed with corresponding impact rated shingles (refer to FM Approvals for more details on the FM 4473 impact resistance testing standard).

IKO UltraHP® high-profile hip and ridge cap shingles are available in colors that complement these Cambridge Cool Colors Plus Shingles, to protect vulnerable roof areas and to create a truly stunning roofline.

IMPORTANT! For complete satisfaction, view full-size shingles and an actual roof installation before selecting a color. Online swatches, brochures, and our **ROOFViewer®** tool may not accurately reflect the shingle color or full color blend range, nor show the impact of sunlight.
