RESISTANCE
RATING

High-Definition Color Blends and a Class 3 Impact Resistance rating⁶

Designed as a step-up from our architectural shingles, **IKO Royal Estate™ designer shingles** offer the performance of a Class 3 Impact Resistance rating along with a beautiful upscale look.

Inspired by the look of slate, the precision, random-cut contours of Royal Estate create a roofscape of uncommon beauty that will complement the architectural style of any home.

Extra-deep shadow bands provide contrast for an impressive custom look with all the benefits of an asphalt roof and an appearance that alternative materials can't equal.

Matching hip and ridge cap shingles are available to protect vulnerable roof areas and complete the stunning designer look.

Royal Estate™

PERFORMANCE NEVER LOOKED SO GOOD

						FM 4473 – Class 3 ⁶

IMPORTANT! To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final color selection as the shingle swatches and photography shown online, in our brochures and in our **ROOFViewer**® tool may not accurately reflect shingle color and do not fully represent the entire color blend range nor the impact of sunlight.

Note: Product and color availability may vary by region. ¹See Limited Warranty at IKO.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements. ²High-wind application is required. ³Lifetime means the period of time commencing on the date of the completion of the installation of the shingles on the building, and continuing so long as the owner owns the building on which the shingles were installed. ⁴All values shown are approximate. ⁵Products are developed with reference to these standards. ⁶This rating is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. This is not a guarantee of impact resistance against hail. Damage from hail is not covered under the Limited Warranty. For further details concerning the FM 4473 standards, visit the FM Approvals website.
